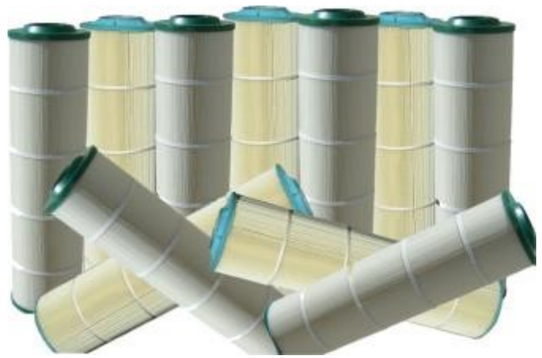
Hurricane Filter Cartridges

Ebbco Replacement Hurricane Filter Cartridges are made of a corrugated polyester-plus™ or cellulose media that provides exceptional dirt-holding capacity and maximum flow. Dirt is distributed more evenly for longer filter runs and lower pressure drop. This media's exclusive blend of fibers won't shrink, delaminate, or migrate. A rugged PVC core and the media are bonded with plastic injected molded end caps for high integral strength and a long service life.

Ebbco cartridges will withstand 35 psi pressure differential and separate particulate from liquids with a ph level between 3 and 11, at temperatures up to 140°F.

Premium Polyester Hurricane Cartridges		
Part Number	**Micron**	**Case Quantity**
HR-930-Q.35	0.35	2
HR-930-Q.75	0.75	2
HR-930-QP1	1	2
HR-930-Q5	5	2
HR-930-P5/2	5	2
HR-930-5/2	5	2
HR-930-Q10/2	10	2
HR-930-EZM	15	2
HR-930-Q20	20	2



ID	OD	Length
3 5/8"	7 ¾"	29"

Cellulose Hurricane Cartridges		
Part Number	Micron	Case Quantity
HR-930-QZ	5	2
HR-930-QC1	1	2

Filter Fit All Ebbco Hurricane Vessel Models:

ERF-155-LP- HRF-155LP, HRF-155-MP, HRF-155-HP, HR-930-SL

All Ebbco Polyester Filter Cartridges are Cleanable and Reusable. By simply drying the filter out completely, placing in strong bag, and gently tapping the filter on a steady surface allowing the dirt to fall out of the pleats.

Micron Sizing Guide

All micron-sizing suggestions are made for the purpose of maximizing filter and resin life, and most importantly machine performance. End users will ultimately decide what is best for them

Material Being Cut	Recommended Micron Size
Carbide	0.35, 0.75 or 1
Carbon	0.35, 0.75 or 1
Graphite	0.35, 0.75 or 1
Gold	1 or 5
Steel	5 or10
Stainless Steel	5 or10
Copper	5 or 10
Brass	5 or 10
Titanium	5 or 10
Aluminum	10, 15 or 20
